March 2026

AFRO-GOSPEL WORSHIP · DAR ES SALAAM, TANZANIA

Grace Of Africa is an Afro-Gospel worship project creating music for peace, comfort and faith. Rooted in African gospel traditions and shaped by contemporary worship, the music blends intimate vocals, choir harmonies, and African rhythms. Songs are written in both Swahili and English. The project is created using AI-assisted vocals and production, guided by human songwriting, creative direction, and intention. Founded by a Tanzania-based producer originally from Norway, with a background producing and co-writing for some of East Africa's biggest artists (100M+ streams).
